

There are many reasons which show the importance of buying a TV stands. A TV stand will let us have a better view angle to the place we are sitting. Apart from the view, there are other benefits too of having a tv cabinets stand. It will give us the storage place to hold items like our DVD collection, or if we want to connect the speakers with our TV, the stand will provide us enough space for keeping the speaker on it.

Before purchasing a [TV Entertainment Unit](#) stand, we need to make sure about the stand's size because it will be useless if the air goes too big or too small for the TV set we already had at our home. So few considerations must be in mind before buying a TV Entertainment Unit stand.

There are a few steps to be followed:

### [TV Entertainment Unit Buying Guide](#)

Before you buy a TV Entertainment Unit stand, few things should be considered, like what the actual room size is, what the size of your television is and how much storage place you need for your items. And whether you want a TV Entertainment Unit stand for your office or your bedroom or your tv cabinets lounge, you must buy a TV stand that goes well with your decent place décor.

Televisions are measured diagonally, but we suggest using a measuring tape, and the following will help you find your TV stand for your TV Entertainment Unit.

- Measure your TV. You can also measure it diagonally and multiply it by 0.87 and add your tv cabinets frame further to the amount.
- Televisions have depth too. Measure your television from back and front plus the base as well.
- You need to measure your room's walls and depths. From this, you will know about the floor space that is available for your TV stand.
- It would help if you were not seated too close to your TV Entertainment Unit, which will weaken your eyesight. You should maintain a distance between you and your tv

cabinets to have a good and healthy view.

- The TV Entertainment Unit should be placed at eye level so that a person can view the screen comfortably.

Here’s a graph that shows TV sizes and their suggested TV Entertainment Unit stand width:

Diagonal Measurement	Screen Width	Stand Width
30 in	26 in	28 in
36 in	31 in	33 in
40 in	35 in	37 in
46 in	40 in	42 in
50 in	44 in	46 in
56 in	49 in	51 in
60 in	52 in	54 in

### Choosing a TV Stand Style with Afterpay Furniture

There is a wide array of TV Entertainment Unit stands in the market nowadays. It is one’s choice which one to choose for themselves. Everyone wants to choose a TV stand that fits best with their TV Entertainment Unit and perfectly matches the interior design of the place where you want your TV to be. Whether it is an office or a bedroom or a living room, every person has their taste.

Below are few examples of TV Entertainment Unit stands with their features:

**Transitional TV stands:** these stands meet traditional and modern look, which is sober and straightforward. The tones used are generally neutral that creates a welcoming and neuter environment.

**Traditional TV stands:** these stands have a decorative touch made up of solid woods.

**Contemporary and modern TV Entertainment Unit stands:** these stands are of glass or metal with fine and clean lines, and it offers a very smoothie look.

**Rustic TV stands:** these are more cottages-like designs constructed on lighter woods. These stands have an antique look.

**Industrial TV stands:** these stands make the TV Entertainment Unit enjoyable just by their looks. Their sharp lines made them having a very catchy appearance. And this TV stand is attractive itself as compared to the TV Entertainment Unit set itself.
